

SULLIVAN'S ISLAND LAND MANAGEMENT TALK

- Lecture:** Best Practice Series: "Land Management on Spring Island"
Speaker: Karl F. Ohlandt, Landscape Ecologist, Spring Island Trust
Date: Wednesday, January 27, 2010
Time: 6:30 – 7:30 pm
Place: Ft. Moultrie Auditorium, Sullivan's Island, SC
Sponsor: The Sullivan's Islanders Group

As the Town of Sullivan's Island considers changing the current land management plan for over 90 acres of front beach protected Land Trust property, The Sullivan's Islanders group has identified island communities in South Carolina and the Southeast that have developed successful land management plans. Speakers from these communities are being invited to participate in an educational series of "Best Practice" lectures to provide relevant information to all interested Island residents on the most successful practices currently used to manage the natural environment of these islands and enhance residential property values.

The second speaker in this series is Karl Ohlandt, the Landscape Ecologist for Spring Island in Beaufort County, S.C. As a professional with degrees in Biology, Horticulture and Landscape Architecture, he works with community members and landscape contractors on the management of natural landscape habitats.

The talk is free and open to the public. Please join us for an interesting and useful learning experience for all Islanders.
