

# A trolley's eye view

The Sullivan's Islanders first annual Sullivan's Island Historic Tour of Homes and Buildings was a huge success. Both tours were near capacity. Resident author Roy Williams gave those lucky enough to get a seat an entertaining and accurate look into the unique history and character of Sullivan's Island during a quaint trolley ride through the island.

*The Sullivan's Islanders focus is to protect our open green spaces, and to preserve and promote the unique culture of our island. Next, they plan to host a demonstration by the Birds Of Prey Avian Conservation Center as well as other future activities.*
